MANCHESTER MEDICAL SOCIETY

CHARTERS.

40TH GEORGE III.

22ND MARCH, 1800.

GEORGE THE THIRD, by the Grace of God, of Great Britain, France, and Ireland, King, Defender of the Faith, &c. To ALL TO WHOM these Presents shall come, WHEREAS our Royal Predecessor, King Edward IV., by certain Letters Patent, under the Great Seal of England, bearing date the 24th Day of February, in the first Year of his Reign, did at the Supplication of the Freemen of the Mystery of Barbers of the City of London, using the Mystery or Faculty of Surgery, grant to them, among other Things, that the said Mystery, and all the Men of the same Mystery of the said City, should be one Body and Perpetual Community, and that two Principals of the same Commonalty, of the most expert Men in the Mystery of Surgery, might, with the assent of twelve or eight Persons at the least, of the same Community, every Year elect and make out of the Community, two Masters, or Governors, being the most expert in the Mystery of Surgery, to oversee, rule, and govern, the Mystery and Commonalty aforesaid.

Recital of the Letters Patent of 1st Edward 4th;

incorporating the Freemen of the Mystery of Barbers of the City of London.

AND WHEREAS by an Act of Parliament, made and passed in the 32d Year of the late King Henry VIII. intitled for Barbers and Surgeons, after reciting, that, within the City of London, there were then two several and distinct Companies of Surgeons, occupying and exercising the Faculty of Surgery, one Company called the Barbers of London, and the other Company called the Surgeons of London. It was thereby enacted, That the said two several and distinct Companies of Surgeons should from thenceforth be united, and made one intire and whole Body Corporate, and one Commonalty Perpetual, which at all times thereafter should be called by the Name of the Masters or Governors of the Mystery and Commonalty of the Barbers and Surgeons of London; and by the same Name to implead and be impleaded before all manner of Justices, in all Courts, and in all manner of Suits.

Of the Act 32d Henry 8th.

By which the two Companies of Barbers of London, and Surgeons of London were united.

Of the Letters Patent of 5th Charles 1st.

And whereas, in and by certain Letters Patent, under the Great Seal of England, bearing Date the 15th Day of August, in the 5th Year of the Reign of His late Majesty, King Charles I., reciting that the Men of the same Companies enjoyed divers Liberties and Franchises within the City of London, the Suburbs and Liberties thereof, by virtue of divers Acts of Parliament, and divers Charters, and Letters Patent, His said Majesty did grant and confirm unto the said Masters and Governors of the Mystery and Commonalty aforesaid, and their Successors, all and singular the Manors, Messuages, Lands, Tenements, Customs, Liberties, Franchises, Immunities, Jurisdictions, and Hereditaments, whatsoever, which the Men of the said Companies then held, used, and enjoyed, by any lawful Means or Title whatsoever: And his said late Majesty did thereby give power to the said Corporation, to make annual Elections of Masters or Governors of the said Commonalty, whereof two to be Professors in the Art and Science of Surgery; and also to elect and constitute ten of the Freemen of the said Society to be Examiners of Surgeons in London.

Which confirmed to such united Company all the possessions, franchises and liberties which the said Company then held and enjoyed,

with power to make annual Elections of Masters or Governors whereof two to be Professors in Surgery; and to elect ten Freemen to be Examiners.

Recital of the Act of 18th of George 2d.

And whereas, by an Act of Parliament, made and passed in the 18th Year of the Reign of our late Royal Grandfather, King George II., intitled "An Act for making the Surgeons of London, and the Barbers of London, two separate and distinct Corporations," It was enacted, that the said Union and Incorporation of the Barbers and Surgeons of London, made and effected by the aforesaid Act of the 32d Year of King Henry VIII. should, from and after the 24th Day of June, 1745, be dissolved and declared void and of no effect; and that such of the Members of the said united Company who were Freemen of the said Company, and admitted and approved Surgeons, within the Rules of the said Company, and their Successors, should from thenceforth be made, and they were thereby made and constituted, a separate and distinct Body Corporate and Commonalty Perpetual, which at all times thereafter were to be called by the Name of Master, Governors and Commonalty of the Art and Science of Surgeons of London, and by the same Name might implead and be impleaded before all manner of Justices, in all Courts, and in all manner of Actions and Suits, and take to them and their Successors, Lands, Tenements, Rents, or Hereditaments, not exceeding the yearly Value of £200 in the whole.

by which the Union of the two Companies was dissolved;

and which constituted a distinct Company of Surgeons, by the Name of "The Master, Governors, and Commonalty of the Art and Science of Surgeons of London."

Recital that such Corporation was dissolved.

And whereas, we are informed that the said Corporation of Master, Governors, and Commonalty of the Art and Science of Surgeons of Lon-

don, hath become and now is dissolved: And whereas, it is of great consequence to the Commonweal of this Kingdom, that the Art and Science of Surgery should be duly promoted: And whereas, it appears to us, that the Establishment of a College of Surgeons will be expedient for the due promotion and encouragement of the Study and Practice of the said Art and Science, Now We, of our special Grace and mere Motion, and at the humble Petition of James Earle, Esquire, the late Master, and divers other Members of the aforesaid late Corporation of Surgeons; have willed, ordained, constituted, declared, given and granted, and by these Presents, for Us, Our Heirs, and Successors, do will, ordain, constitute, and declare, give and grant; unto the aforesaid James Earle, and unto all the Members of the said late Company or Corporation of Master, Governors, and Commonalty of the Art and Science of Surgeons of London; having been admitted and approved Surgeons, within the Rules of the said Company; and also unto all such Persons, who upon, or since, the dissolution of the said Corporation, shall have obtained Letters Testimonial, under a Seal purporting to be the Seal of the said late dissolved Corporation, authorizing them to practise the Art and Science of Surgery; and they, from henceforth for ever hereafter, shall be and remain by virtue of these Presents, one Body Corporate and Politic; by the Name of The Royal College of Surgeons in London, and by the same Name shall and may have perpetual Succession, and a Common Seal; with power to break, alter, and make anew the said Seal, from time to time at their will and pleasure; and by the same Name shall and may implead, and be impleaded, before all manner of Justices, in all Courts, and in all manner of Actions and Suits; and shall be at all times for ever hereafter persons able and capable in Law to take, purchase, possess, hold, and enjoy, and shall and may take, purchase, possess, hold and enjoy, a Hall or Council-house, with its Appurtenances, situate within the Cities of London or Westminster, or within one Mile of either of them, for the use and purposes of the said College; and also any other Lands, Tenements, Rents, or Hereditaments, wheresoever situate, lying and being; not exceeding, together with the aforesaid Hall or Council-house, and its appurtenances, the yearly value of one thousand Pounds in the whole; without incurring any of the Penalties in any Statute of Mortmain, or any Thing, in any Statute of Mortmain, to the contrary notwithstanding.

That it is of great consequence that the Science of Surgery should be duly promoted,

and that a College will be expedient for the due encouragement thereof.

Therefore His Majesty was pleased to incorporate the Members of the late Company, and all such Persons who since the Dissolution thereof have obtained Letters Testimonial &c.

By the name of "The Royal College of Surgeons in London."

With perpetual succession and a common seal;

and power to hold and enjoy a Council-house within London or Westminster or one mile of either of them; and to possess lands and tenements, including such Council-House of the yearly value of £1000 in mortmain.

And it is Our further Will and Pleasure, that nothing in these Presents

Proviso,—That the City of Lon-

don shall not have any jurisdiction over the College.

shall be construed to give the Corporation of the City of London any Power or Jurisdiction over the said College hereby established and incorporated;

Nor the Members of the College enjoy any franchise belonging to the Freemen of the City of London.

and that no Person, by virtue of these our Letters Patent, constituted or ordained, or hereafter to be admitted a Member of the said College, shall be thereby entitled to any Franchise belonging to the Freemen of the City of London.

The College to enjoy all other privileges and possessions by any former Acts or Letters Patent, given to, or otherwise acquired by, the late Company, not hereby altered, &c.

5. Every person, prior to his Admission as a Member, shall subscribe his name to a Copy of the Bye-Laws of the College, in testimony of his having engaged himself to the observance thereof.

6. If the Court of Examiners shall find any circumstance in the Character, Conduct, or mode of Practice of any Candidate for Examination which in their opinion renders such Candidate unfit to be admitted a Member of the College, the said Court shall have the power of declining to examine him until the opinion of the Council shall have been taken thereon.

SECT. XV.—RIGHTS OF FELLOWS AND MEMBERS.

THE SECRETARY'S REPORT.

Secretary's Report.

THE Secretary's Report prepared in pursuance of the resolution of the Council of the 9th of December, 1880.

Ordinary Council in August 1885.

ORDINARY MEETING OF THE COUNCIL ON THE 6TH OF AUGUST, 1885.

Report of Building Committee of two Colleges approved, adopted, and to be entered on Minutes.

The following Report from the Building Committee of the Royal Colleges of Physicians and of Surgeons was approved, adopted, and directed to be entered on the Minutes, viz. :—

Report.

REPORT, dated the 24th of July, 1885, of the Building Committee appointed by the Royal Colleges of Physicians and of Surgeons.

The Building Committee consider that accommodation for examination purposes should be provided in the new building for at least 600 candidates at one time, the experience of the past year having proved that less than that accommodation would not meet the requirements of the two Colleges. The Committee therefore recommend to the two Colleges to adopt the plans now submitted to them, which have been approved by the Duchy of Lancaster.

These plans will provide a building with the necessary accommodation, occupying a little more than half the ground taken on lease by the two Colleges.

The estimated cost of the proposed building is approximately stated to be £30,000.

DYCE DUCKWORTH,
Chairman.

July 24th, 1885.

The following Resolutions relating to the Report were also adopted, viz. :—

Committee authorized to carry out plans for Building, &c.

That authority be given to the Building Committee to carry out the proposed plans, including the necessary legal arrangements, and that the College Seal be affixed to such legal instruments as the Solicitors of the two Colleges shall advise.

No alteration in plans to be made without authority of the two Colleges.

That it be an instruction to the Building Committee that no alteration in the plans be permitted after the contracts have been made, until the sanction of the Colleges has been obtained to such alteration.

Report of Committee of Delegates of Royal Colleges of Physicians and of Surgeons on the grant of title of "Doctor" received and entered on Minutes, and consideration thereof deferred.

The following Report, dated the 7th of July, 1885, from the Committee of Delegates appointed by the Royal Colleges of Physicians and of Surgeons on the question as to the advisability and practicability of granting the title of "Doctor" to persons who have received the Diplomas of the two Colleges, was received, directed to be entered on the Minutes, and the consideration thereof postponed until October, viz. :—

Report.

REPORT, dated the 7th of July, 1885, of the COMMITTEE OF DELEGATES, appointed by the Royal College of Physicians of London and the Royal College of Surgeons of England, to consider the question of the advisability and practicability of granting the title of "Doctor" to persons who have received the Diplomas of the two Colleges.

The Committee have to report that they have fully considered the question referred to them, viz. the advisability and practicability of granting the Title of Doctor to persons who have obtained the Diplomas of the two Colleges.

They have also considered the Memorial, signed by more than 600 Teachers, Practitioners, and Students in Medicine, and referred to them, advocating the amalgamation of the two Colleges into one Royal College of Medicine, for the purpose of granting Degrees in Medicine and Surgery.

After careful deliberation the Committee have unanimously agreed to the following Resolutions as expressive of their opinion on the subject :—

i. That it is desirable that persons examined by the Royal College of Physicians of London and the Royal College of Surgeons of England conjointly, and found duly qualified, should, in virtue of that Examination, have a Degree in Medicine and Surgery conferred upon them.

ii. That the curriculum of study and the Examinations to be undergone for the Licence of the Royal College of Physicians of London and the Diploma of the Royal College of Surgeons of England are equal to those required by most of the Universities for Degrees in Medicine and Surgery.

In conclusion, the Committee are of opinion that, should the two Colleges approve the foregoing Resolutions, means could be found for giving effect to them.

2. That, in the opinion of this Meeting, no alteration in the Constitution or in the relations of the College or in any of its Bye-Laws or Ordinances shall be effected without the consent of the Fellows and Members convened to discuss the same.

Extraordinary Meeting of the Council on the 17th of November, 1885.

Extraordinary Council, 17th November, 1885.

The following Statement, dated the 16th of November, 1885, prepared by the President and Vice-Presidents, in pursuance of the Resolution of the Council of the 12th of November, 1885, and proposed to be submitted to the next meeting of the Fellows and Members was approved, adopted, and directed to be entered on the Minutes, viz.:—

Statement to be presented to Meeting of Fellows and Members approved, adopted, and to be entered on Minutes.

Report, dated the 16th of November, 1885, from the President and Vice-Presidents.

Report.

At a Meeting of Fellows and Members of the College, held on the 29th of October, 1885, the following Resolutions were carried, viz.:—

"1. That the Council of the Royal College of Surgeons not having accepted the principle that Members as well as Fellows should take part in the election of the Council, in the opinion of this Meeting steps should at once be taken to memorialise Parliament and the Crown, so as to secure, in the interest of the Public and of the Profession, the right to representation in the administration of the affairs of the College for its sixteen thousand five hundred legally qualified Members.

"2. That, in the opinion of this Meeting, no alteration in the Constitution or in the relations of the College or in any of its Bye-Laws or Ordinances shall be effected without the consent of the Fellows and Members convened to discuss the same."

On these Resolutions being reported to the Council on the 12th of November, 1885, the following Resolutions were unanimously adopted by the Council, viz. :—

"1. That the Council think it not desirable to diminish the privileges of the Fellowship of the College by depriving Fellows of the exclusive rights of electing to the Council and of being eligible to become Members thereof.

"2. That in the opinion of the Council it is quite impracticable to act on the proposal contained in the second Resolution adopted at the Meeting of Fellows and Members."

Statement. STATEMENT prepared by the President and Vice-Presidents, in pursuance of the Resolution of the Council of the 12th of November, 1885, in reference to the Resolutions carried at the Meeting of Fellows and Members held on the 29th of October, 1885, and in explanation of the views of the Council.

With reference to the first Resolution of the Meeting,—

The Council have carefully considered the question which some Members of the College have recently raised, and it does not appear to the Council that the main argument which these Members advance to support their claim, that all the Members should be entitled to vote in the election of Members of the Council, is a valid one. It is founded on the analogy which is assumed to exist between the payment of a fee for examination and the diploma and the payment of taxes. The statement is in effect this : that, inasmuch as the payment of taxes by an individual confers on him the right to a vote in the choice of a representative, so the fee which is paid by a candidate to the College, when he receives from it a diploma which gives him the legal right to practise, also carries with it a right to a vote in the election of the Council.

The Council are of opinion that the two cases are not alike. The only advantage which the taxpayer secures by the payment of taxes is derived from the outlay of the money which is thus raised, and it is therefore reasonable that he should have some voice in the manner in which it is spent. But for the fee which a candidate pays in becoming a Member of the College he receives the full value in his diploma. Nay, it must be said that in his diploma he receives far more than the equivalent of his money in the rights, privileges, and immunities which he thereby acquires. Moreover, there can be no doubt that the Membership of the College carries with it, beyond the right to practice, professional and social advantages which are directly derived from the College itself.

The argument that the Members of the College being more numerous than the Fellows, are consequently entitled to vote in the

election of the Council, is to be met by referring to the Charter of 1843, by which a constituency of Fellows only was provided. The Council would point out (1) that Members of the College, prior to the date of that Charter, are eligible for election as Fellows; (2) that Members of a later date can become Fellows by passing the required examination; and (3) that the Council already possess the power of electing annually two eminent Members of twenty years' standing to the Fellowship—a power which has been, and may at any time be, exercised.

The College of Surgeons has of late been often spoken of as if it were only a corporation, and the Council had no responsibility or relation except to its Fellows and Members. It is a corporation, but it is something more; and the Council are not only the representatives of the Fellows, and have not only responsibilities to the Fellows and Members, but the College holds an important relation, and its Council have grave responsibilities, to the whole profession, the general public, and the State.

The Council cannot regard the Members of the College as mere taxpayers to a corporation, and they cannot discover in this view, which appears to them inadequate, any support to the claim which is now urged by some Members.

Moreover, this claim could not be conceded without serious interference with the privileges of the Fellows. The exclusive rights of electing Members of the Council, and of being eligible for a seat on the Council, are among the chief advantages which the College itself confers on the Fellowship. It appears to the Council neither wise on behalf of the College, nor just to the Fellows themselves, to deprive them of this distinction.

The Council passed the Resolution unanimously, as they are strongly of opinion not only that the existing rights of the Fellows should be preserved, but that their rank in the College of Surgeons should be fully recognized; for they are anxious, in the highest interest of surgical education, to encourage Members of the College to obtain the Fellowship.

In reply to the second Resolution of the Meeting,—

The Council regret that they cannot assent to the terms of the second Resolution of the Fellows and Members. In their opinion the conduct of the business of the College would be liable to serious hindrance if, for instance, no change in a Bye-Law or Ordinance could be effected without the consent of a general meeting of the Fellows and Members. This would often create inconvenient delay, and, in the event of any great difference of opinion between the meeting of Fellows and Members and the Council, lead to complete obstruction. For the Council cannot admit that the Fellows and Members in general can be such competent judges of what is required, in this respect, for the welfare of the College as the Council themselves, who, from their oppor-

tunities and experience of the business of the College, must be much better qualified to consider such questions when they arise. Moreover it is certain that any general meeting convened for the purpose would consist only of a small fraction of the whole body of Fellows and Members, and neither by this, nor by any other means which could be devised, would the Council be able to obtain satisfactory information as to the opinion of the majority of the Fellows and Members.

It may be added that no Bye-Laws can be made and ordained or abrogated and annulled without recourse to a most deliberate process (see Section III. of the Bye-Laws), involving several references to a Committee, not less than four Meetings of the Council, consultation with the legal advisers of the College, submission of the formulæ to the Secretary of State, and, under recent enactment, in special cases, to the Privy Council for approval, and finally ratification by two of Her Majesty's Judges.

With the larger questions which more rarely arise, such as those which concern the constitution of the College, the case would be different. On these questions the Council will always be glad to have an opportunity, as far as practicable, of consulting the Fellows and Members.

Report of Committee of Colleges on the question of the grant of title of "Doctor." read, received, and to be entered on the Minutes.

The following Report of the Committee of Delegates of the two Colleges on the subject of the grant by them of the title of "Doctor," the consideration of which had been postponed, was read, received, and directed to be entered on the Minutes, viz. :—

Report.

REPORT, dated the 7th of July, 1885, of the COMMITTEE OF DELEGATES, appointed by the Royal College of Physicians of London and the Royal College of Surgeons of England, to consider the question of the advisability and practicability of granting the title of "Doctor" to persons who have received the Diplomas of the two Colleges.

The Committee have to report that they have fully considered the question referred to them, viz. the advisability and practicability of granting the Title of Doctor to persons who have obtained the Diplomas of the two Colleges.

They have also considered the Memorial, signed by more than 600 Teachers, Practitioners, and Students in Medicine, and referred to them, advocating the amalgamation of the two Colleges into one Royal College of Medicine, for the purpose of granting Degrees in Medicine and Surgery.

After careful deliberation the Committee have unanimously agreed to the following Resolutions as expressive of their opinion on the subject :—

i. That it is desirable that persons examined by the Royal College of Physicians of London and the Royal College of Surgeons of England conjointly, and found duly qualified, should, in virtue of that Examination, have a degree in Medicine and Surgery conferred upon them.

ii. That the curriculum of study and the Examinations to be undergone for the Licence of the Royal College of Physicians of London and the Diploma of the Royal College of Surgeons of England are equal to those required by most of the Universities for Degrees in Medicine and Surgery.

In conclusion, the Committee are of opinion that, should the two Colleges approve the foregoing Resolutions, means could be found for giving effect to them.

Chairman.

"Moved by Dr. Wilks, seconded by Dr. Broadbent, and agreed to:—

"That it is desirable that persons examined by the Royal College of Physicians of London and the Royal College of Surgeons of England conjointly, and found duly qualified, either by the ordinary or by an additional examination, should have a degree in Medicine and Surgery conferred upon them."

"Moved by Dr. Sieveking, seconded by Dr. Habershon, and agreed to:—

"That the Resolution be referred to the Council for consideration and to report thereon."

October 22nd, 1885."

Read letter from Dr. R. H. Milson forwarding copy of resolution of Faculty of Medicine of University of Durham on subject.

A letter of the 5th of October 1885 was read, from Dr. R. H. Milson, Honorary Southern Secretary of the Durham University Medical Graduates' Association, forwarding, in reference to the question of the title of "Doctor" being granted by the two Colleges, a copy of a Resolution adopted by the Faculty of Medicine of the University of Durham, expresssive of the hope of the Faculty that the Colleges before approaching the Legislature to obtain the necessary power to grant the title, will seek a conference with the representatives of the Universities of England, with the object of ascertaining whether the existing power of the Universities in granting Degrees in Medicine could not be increased.

It was thereupon resolved by the Council *nem. con.*:—

Question referred to a Committee.

That it be referred to a Committee to consider and report to the Council on the question, whether it is desirable, and, if so, under what conditions, that Degrees in Medicine and Surgery should be given by the two Colleges in combination.

Committee elected.

A Committee of seven Members of the Council, exclusive of the President and Vice-Presidents, was then elected.

ORDINARY MEETING OF THE COUNCIL ON THE 10TH DECEMBER, 1885.

Mr. Marshall reports proceedings of General Medical Council.

The following letter, dated the 9th of December, 1885, from Mr. John Marshall, Representative of the College in the General Medical Council, reporting the proceedings of that Council during its late Session, was read, and directed to be entered on the Minutes, viz.:—

To the President, Vice-Presidents, and Council of the Royal College of Surgeons of England. Letter.

GENTLEMEN,

Although the Session of the General Medical Council held during last month was an unusually brief one, several of its proceedings, having reference to the College, require some notice at my hands.

A correspondence between Mr. Scattergood, the Dean of the Medical Department, Yorkshire College, Leeds, and the Assistant Secretary and Secretary of the College, relative to the action of the College, in regard to persons who have been registered as Students without having been examined in the subject of "Mechanics," was brought to the notice of the General Medical Council, and entered on its Minutes. No further proceedings were taken thereon. The letter of our Secretary, dated the 30th of October, 1885, explains that this College (acting without or with the Royal College of Physicians), in accepting the usual evidence of registration of a Student before commencing his Medical Studies, does not now inquire into the details of the Preliminary Examination which he has passed.

A "Statistical Committee," appointed in May by the General Medical Council, has, through the well-known ability of the Registrar and the energy of his assistants, been enabled to present a *first* Report, containing, I submit, much interesting matter for consideration. It constitutes, however, a mere instalment of a future complete Report. Whatever the value of such condensed and numerically expressed information may be,—and doubtless opinions may differ on the point—it is, I believe, the duty of a public body like the General Medical Council to supply to all comers such authentic returns, derivable from the accumulated stores of information in its possession. In due time, these will present a more or less exact picture of the "movement" of the Medical profession in the United Kingdom. The Committee invite criticism and suggestions from every side.

A question of much interest to the College was raised before the General Medical Council, by a communication from the Local Government Board inquiring as to the value of the License of the Society of Apothecaries, now that the Society has added Surgery to its Examinations.

It appears that Mr. W. G. Bower, of 26 Great Ormond Street, wrote to the Secretary of the Society, to ask whether the License of that Body (which he describes as a "diploma") was recognized by the Local Government Board, so that "Poor Law appointments could be obtained by the holder of it." To this, the Secretary to the Court of Examiners of the Apothecaries Society replied, "I do not know whether our diploma will meet the requirements of the Poor-Law Authorities, upon which point you seek information; it would no doubt be supplied if you were to inquire in the proper quarter." Therefore, Mr. Bower applied to the Local Government Board and used the following language:—"The Society of Apothecaries having this year added the subject of Surgery to

their Examination, their diploma now enables the recipient to practise in both Medicine and Surgery." Having thus settled an important question to his own satisfaction, Mr. Bower proceeds to state that he had asked the Secretary of the Apothecaries Society "if this double qualification (at least the one in Surgery) was recognized by the Local Government Board; in other words, if Poor-Law appointments could be obtained by the holder of it."

In due course, the Assistant Secretary of the Local Government Board forwarded this correspondence to the General Medical Council, and added that "the Board would be obliged by the opinion of the General Council of Medical Education," as to "whether a person holding the diploma of the Apothecaries Society only is entitled to practise both Medicine and Surgery in England and Wales."

It was at first proposed in the General Medical Council that the letter of the Assistant Secretary of the Local Government Board should be referred to a Committee for consideration and report to the next Session of the Council; but to this an amendment was moved that there should be sent to the Local Government Board an answer embodying five long statements, seemingly framed so as to prepare the way for putting a favourable construction on the assumption, contained in Mr. Bower's letter, that a "person who has passed the present Examination at Apothecaries Hall (which now embraces an examination in Surgery) becomes thereby entitled to practise both Medicine and Surgery."

After a prolonged discussion occupying parts of three sittings, this Amendment was negatived by a majority of 15 against 3 (3 other Members not voting, and 3 being absent). Two other Amendments having been disposed of, it was ultimately resolved:

> "That the Local Government Board be informed that, the certificate granted by the Society of Apothecaries of London, has hitherto been considered by the Council to be a qualification in Medicine only, and that the fresh point raised by the communication of Mr. Bower involves matter in which they must respectfully decline to pronounce an opinion, as they regard it as a purely legal question."

In the course of the discussion, reference having been made to the exclusion of the Society of Apothecaries from the Combined Examining Board formed by the two Royal Colleges, I took occasion to point out that the inclusion of that Society would not have added to the utility or stability of the scheme, nor to the value of the qualifications obtainable through its operation.

Lastly, I have to note that the penal procedures of the General Medical Council included the removal from the Medical Register of the qualification of M.R.C.S., previously held by Francis Goold, and by Thomas Clarkson, both those persons having been struck off our roll of Membership. Francis Goold having no other qualification, his name also was erased from the Register.

I have the honour to be,
Your obedient Servant,
JOHN MARSHALL.

ROYAL COLLEGES OF PHYSICIANS AND OF SURGEONS.

Report.

Report, dated the 23rd of January, 1886, of the Building Committee.

The Building Committee, authorized by the two Colleges to carry into effect the plans for the construction of an Examination Hall on ground leased from the Duchy of Lancaster, beg leave to present their first Report.

So soon as the two Colleges had approved the plans for the Building, and sanctioned the necessary outlay, the Committee lost no time in procuring tenders from six selected building-firms of the highest character, and, as is the practice under such circum-

stances, the lowest tender was accepted—one which the Committee are gratified to be able to state was under the sum estimated by the architect as the probable cost of the building.

The work of clearing the ground and preparing for the foundations was commenced without delay, and the Architect's Report, which is appended, will explain the progress that has been made up to the present time.

The Committee are unanimous in recommending to the two Colleges that some suitable ceremony should take place on the occasion of laying the first stone of the new Building; and should this proposal meet with the approval of the two Colleges, the Building Committee, if so authorized, are willing to undertake the responsible duty of making all the requisite arrangements.

THE PRESIDENT.

THE VICE-PRESIDENTS.

The Committee, appointed on the 10th of December, 1885, to consider and report to the Council on the following Resolution, viz.:

> "That a Committee be appointed to consider and report to the Council whether it is desirable in any way to widen the basis upon which the Fellowship is obtained, and, if so, by what methods,"

have held four Meetings (on the 13th of January, on the 10th and 19th ultimo, and on this date), and have agreed to the following Report, viz.:—

The Committee are of opinion that it is desirable that the basis upon which the Fellowship is obtained should be widened, provided this be so done that the value of the distinction as now held by the Fellows of the College be not diminished.

Two methods have been especially considered by the Committee. In one of these the Council would elect to the Fellowship, every year, a certain number, not exceeding ten, of Members of the College, of not less than twenty years' standing, who are distinguished by scientific or professional ability or by good service rendered to the profession or the public, and who are recommended by ten Members of the College, of whom at least half shall be also Fellows, none of the Fellows so recommending being Members of the Council.

In the other method, Members of not less than fifteen years' standing would be exempted from the First Professional Examination for the Fellowship—that, namely, in Anatomy and Physiology, and would be required to pass only the Second Examination as defined in the Regulations for the Fellowship.

A majority of the Committee were in favour of the first of these methods, but a large minority preferred the second. The Committee, therefore, submit both to the Council for its decision; and it will be observed that they are not incompatible, but would correspond with the two methods of obtaining the Fellowship, that by election and that by examination, which have existed since 1852 and 1843 respectively.

If the method by recommendation and election be adopted, it

will be necessary to obtain an alteration in Section 5 of the Charter of the 15th Victoria.

If the method by examination be adopted, it will only be necessary to alter Section XXI. of the Bye-Laws.

Whatever may be the decision of the Council on these points, the Committee are of opinion that the Council should acquire the power of electing annually two persons, who shall be considered and named Honorary Fellows of the College, and who, whether Members of the College or not, should be persons who have rendered distinguished service in the advancement of Surgery or the sciences allied to Surgery. The Honorary Fellows should, in the opinion of the Committee, be exempted from the payment of any fee, and should not have the right of voting for or becoming Members of the Council.

JAMES PAGET,
Chairman.

3rd March, 1886.

The Report having been considered by the Council paragraph by paragraph, the following Resolutions were carried, viz :—

Report considered paragraph by paragraph.

That the Council concur in the opinion of the Committee that it is desirable that the basis upon which the Fellowship is obtained should be widened, provided this be so done that the value of the distinction, as now held by Fellows of the College, be not diminished.

Desirable to widen basis on which Fellowship is obtained.

That both methods of widening the basis upon which the Fellowship is obtained, mentioned in the Report of the Committee, be adopted.

Both methods of widening basis of obtaining Fellowship adopted.

That the Council concur in the opinion of the Committee embodied in the last paragraph of the Report, by which it is proposed that the Council should acquire the power, under the conditions therein stated, of electing annually two persons as Honorary Fellows of the College.

Power to be acquired for electing two Honorary Fellows in each year.

The First Report, dated the 22nd of February, 1886, of the Committee on the question whether it is desirable, and, if so, under what conditions, that Degrees in Medicine and Surgery should be given by the two Colleges in combination, was read, received, and directed to be entered on the Minutes, viz. :—

Committee of Management.

Report. Report, dated the 2nd of March, 1886, of the Committee of Management.

The Committee, having now had more than a year's experience of the working of the several Examinations of the Examining

Board and the Regulations relating thereto, are of opinion that certain modifications are necessary, especially in the First Examination, and accordingly recommend to the two Colleges the adoption of the following Resolutions, viz. :—

1. That Medical Botany be omitted both from the subjects of Examination and from the curriculum of Professional Education.
2. That Candidates be allowed the option of taking the subjects of Materia Medica and Pharmacy either as part of the First or as part of the Second Examination.
3. That in the First Examination "Chemistry, including Chemical Physics" be substituted as a title in lieu of "Chemistry; and Chemical Physics, meaning thereby Heat, Light, and Electricity."
4. That the subjects of the First Examination be divided into three Parts instead of two Parts, viz. :—

I. Chemistry, including Chemical Physics.
II. Materia Medica and Pharmacy.
III. Elementary Anatomy and Elementary Physiology.

5. That Candidates be allowed at once to avail themselves of these alterations.

The Committee have further to report that, in consultation with the Examiners, they have revised the Synopses relating to the subjects of the First Examination, and that, in their opinion, it is undesirable at present to make any other alterations either in the Examinations or Regulations.

Mr. Marshall's motion in reference to resolution at Meeting of Fellows and Members carried.

The following Resolution on the subject of the proceedings at the Meeting of Fellows and Members on the 17th of December, 1885, proposed by Mr. Marshall, and seconded by Sir James Paget, Bart., was adopted by the Council, viz. :—

Resolution.

That the Council have considered the Resolution, carried at the Meeting of Fellows and Members held on the 17th December, 1885, in reply to a communication from the Council bearing date the 16th of the previous month, which Resolution is as follows:—

> "That the answer of the Council is not satisfactory, and that the Council be respectfully requested to reconsider the subjects :
>
> "1. Of the representation of Members of the College; and
>
> "2. Of submitting for approval any alterations proposed to be made in the constitution or the relations of the College, or in any of its Bye-Laws, to a meeting of the Fellows and Members."

That the Council, in reply to this Resolution, have to make the following statement :—

1. As regards the subject of the "representation of the Members of the College."

Whilst fully recognizing the gravity of the question of the representation of Members of the College (presumably in or upon the Council), the desire of Members to be so represented, and the advantage of uniting in harmonious relationship all the constituent elements of the College, the Council still retain the opinion already expressed by them, "that it is not desirable to diminish the privileges of the Fellowship by depriving Fellows of the exclusive rights of electing to the Council and of being eligible to become Members thereof."

Entertaining this view, the Council are unwilling, and, indeed, unable consistently, to take proceedings for making any organic change in the constitution of the College which would impair the present status of the Fellows, by whom alone they have been elected to office as the Governing Body of the College.

The two methods of widening the basis of the Fellowship, one by election and the other by examination, just agreed to by the Council, by means of which it is hoped that the acquisition of the Fellowship and its concomitant rights by Members of the College will be facilitated, involve no organic or constitutional change in the government of the College.

The Council are quite aware, however, that these new proposals do not constitute a complete response to the desire of Members to a share of representation in or upon the Council. At the same time, they would point out that no detailed plan, formulated by the two Bodies mutually interested in the question, that is the Fellows and the Members, by means of which a share of representation might be assigned to the latter, has yet been presented to the Council.

The Council are quite prepared to give careful attention to any such jointly authorized plan, approved by a majority of each Body, and would found their decisions concerning it, not merely upon a consideration of the relative interests of the Fellows and Members, but also upon a due regard to the position and future welfare of the College.

2. That in reference to the other subject, viz. that of submitting questions to General Meetings of Fellows and Members.

The Council have to reply that, whilst they still adhere to the opinion that it is unnecessary, and would as a rule be impracticable, to refer certain questions to the consideration of a General Meeting of the Fellows and Members, they wish to state that, in accordance with their declared view, that "they would be glad to consult the Fellows and Members when larger questions arise, such as those which concern the constitution of the College," they would take care to report the conclusions at which they might arrive, in regard to any plan presented to them concerning the representation of Members, to a Special Meeting of Fellows and Members.

The Council, however, could only regard such a Meeting as consultative, and not as possessed of a direct power to veto or alter their decisions.

Ordinary Meeting of the Council on the 13th of May, 1886.

Report from Building Committee read, received and to be entered on Minutes.

A Report, dated the 3rd of May, 1886, from the Building Committee of the Royal Colleges of Physicians and of Surgeons was read, received, and directed to be entered on the Minutes as follows, viz.:—

Report.

Report of the Building Committee of the Royal Colleges of Physicians and of Surgeons.

The Building Committee beg leave to present to the two Colleges an *ad interim* Report, as follows:—

Her Majesty having graciously consented to lay the foundation-stone of the Examination Hall on the 24th of March, the Building Committee, by direction of the two Colleges, made the requisite preparations for the ceremonial, which was successfully performed in the presence of several members of the Royal Family, many distinguished representatives of the learned Societies, and more than 1000 members of the Medical Profession.

The entire cost incidental to the ceremonial amounts to £982 17*s.* 2*d.*, which will be defrayed equally by the two Colleges.

The Architect reports that "the works at the new Examination Hall are progressing satisfactorily. On the west side the walls are up to the string course under the first-floor windows, and on the front and east side up to the first-floor level."

The Committee believe that the building will be completed and ready for occupation by the 24th of March next, the anniversary day on which the foundation-stone was laid.

The Building Committee, in presenting this Report to the two Colleges, think it their duty to remind them that there remains unoccupied, close to the Examination Hall, a considerable plot of ground, the property of the Colleges, and that it would be desirable that the Colleges should take into their early consideration whether the ground in question might be occupied by buildings for such purposes as they may hereafter approve.

Letter from Mr. Marshall reporting proceedings of General Medical Council, read, and to be entered on Minutes.

A Letter of the 7th of July, 1886, was read from Mr. John Marshall, Representative of the College in the General Medical Council, reporting the Proceedings of that Council during its late Session, and the same was directed to be entered on the Minutes, viz.:—

Letter.

To the President, Vice-Presidents, and Council of the Royal College of Surgeons of England.

GENTLEMEN,

In making my customary communication to you as to the proceedings of the General Medical Council, I wish to take the opportunity of thanking you for again electing me your Representative on that Public Body. The changes which will shortly be made in its Constitution will largely increase the interest taken in its course of action, and in no degree diminish the labour and responsibilities of its individual Members.

I am glad to inform you that, at the recent session of the Council, I was appointed a Member of the Executive Committee, to which most of the powers of the General Council are delegated in the intervals between its sittings; and I was also chosen Chairman of the Business Committee.

The very copious Reports of the Visitors of the Final Examinations of the Universities, in 1885, together with the Remarks of those Bodies in reply, were received by the Council, and have accordingly now been made public. They were discussed at considerable length during four days, and a Provisional Report by a special Committee appointed for that purpose was received and entered on the Minutes, with the understanding that a complete Report would be brought up at the next meeting of the Council.

Each of the three Branch Councils submitted recommendations

MANCHESTER MEDICAL SOCIETY

concerning the best mode of conducting future Visitations of Examinations; but the consideration of this subject was postponed. It will doubtless occupy much of the attention of the enlarged Council, to be constituted under the recently passed Medical Act.

By far the most important resolutions passed at the last Meeting of the General Medical Council are two, adopted on the 4th June, which indicate a desire to obtain information as to the means and methods of teaching in the Medical Schools recognized by the Licensing Bodies. The first resolution, somewhat open to criticism as to its form, is as follows:—

> "That, in the opinion of the Council, it is highly important "to visit and report upon the methods of teaching required "by the Licensing Bodies."

The second resolution, quite practical in its object, is to this effect:—

> "That Visitors be appointed by the General Medical Council "to visit the several Medical Schools (with their permission) "in each division of the Kingdom, and to report upon their "methods of teaching the subjects required by the Licensing "Bodies, and upon the appliances possessed by them for such "purpose."

As the outcome of these resolutions, two forms of letters, signed by the President of the Council, have been prepared and sent, the one form to each Licensing Body, and the other to each Medical School, as well as to individual Private Teachers (if any) whose courses are recognized by a Licensing Body. A copy of the former letter has been received by this College, and will be immediately read to you.

It may be here observed that this proposed extension of the principle of Visitation to the Medical Schools, although a new departure as regards the action of the General Medical Council, is not new considered as a proposal; for similar resolutions were brought before that Council more than ten years since, but were not then accepted, being regarded by the majority as beyond the power of the Council to carry out. On the present occasion, it will be noticed that the Medical Council merely asks for "information" from the Licensing Bodies, and requests "permission" to visit the Medical Schools. It is to be hoped that benefit will ensue from these proceedings.

The name of William Turnbull, who was recently removed from being a Member of this College, has been erased, as well as his title, from the Medical Register. In future, acting under Standing Orders prepared by its legal advisers, the Medical Council will be enabled to exercise its penal authority, as regards the removal from the Register of both titles and names, in a more prompt and more efficient manner than it has hitherto done.

The Council finally decided to take no further proceedings in the case of Mr. Ebenezer Bryceson.

It remains for me to mention three subjects of general interest. In the *first* place, the fact may be here recorded that out of 20,000 copies of the new Edition of the Pharmacopœia, 19,000 copies have been disposed of. *Secondly*, a further Statistical Report is now published, giving the results of the investigation extending over the five years from 1871 to 1875, corresponding with those already published for the year 1871 only.

Lastly, it has been determined by the Medical Council, on a motion submitted by myself, to form a Library of reference consisting of Acts of Parliament, Charters, Statutes, Calendars, Books, Pamphlets and other Documents relating to Medical Education, Examinations, and Qualifications, and to the Rights, Privileges, and Government of the Medical Profession, in our own and other Countries. It is proposed that the Library should be accessible, under certain regulations, to every Member of the Profession. There can be no doubt that this College may be relied on to assist in the development of such a proposal.

I may conclude by stating that the General Medical Council, as at present constituted, will hold one more meeting, probably in the month of October. In November the election of the Members representative of the Profession generally will take place, and the new Council will enter upon its career early in 1887.

I have the honour to be, Gentlemen,
Your obedient Servant,
JOHN MARSHALL.

10 Savile Row, W.
7th July, 1886.

Thanks voted to Mr. Marshall for services.

The best thanks of the Council were unanimously voted to Mr. John Marshall for his very valuable and efficient services as the Representative of the College in the General Medical Council.

Letter from President of General Medical Council forwarding resolutions respecting visitation of Medical Schools referred to Committee of Management to reply.

A letter of the 21st of June, 1886, was read from the President of the General Medical Council, communicating to the College certain resolutions adopted by that Council in reference to a proposed visitation of the several Medical Schools in the United Kingdom, and requesting to be furnished with information as to the Regulations of the College respecting the recognition of Teachers and Medical Schools, and was referred to the Committee of Management to reply thereto.

Professors and Lecturers elected.

The several Professors and Lecturers were elected at this Meeting.

Mr. Savory re-elected President.

Mr. William Scovell Savory was re-elected President for the ensuing year.

Mr. Hutchinson and Sir J. Lister, Bart., elected Vice-Presidents.

Mr. Jonathan Hutchinson and Sir Joseph Lister, Bart., were elected Vice-Presidents for the ensuing year.

Mr. Macnamara's motion to request Committee to report steps taken for alterations in Charters and Bye-Laws carried *nem. con.*

On the motion of Mr. Macnamara, seconded by Mr. Lund, the following resolution was carried *nem. con.*, viz.:

> That in pursuance of the Resolution of the Council of the 9th of April 1885, the Committee on the Mode of Election to the Council, and on other matters relating to the Charters and Bye-Laws of the College, be requested to report, with as little delay as possible, on the steps taken by them in reference to the preparation of the new Sections required in the Charters and the Formulæ for new Bye-Laws to give effect to the resolutions of the Council respecting them.

EDWARD TRIMMER,
Secretary.

THE MUSEUM.

The Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £25,000, Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads:—

Physiological Department, or Normal Structures.

Physiological preparations in spirit	3745
Osteological preparations	965
Dry do.	617
Zoological do.	1968
Fossils:—	
Vertebrate	1215
Invertebrate	2202
Plants	292

Pathological Department, or Abnormal Structures.

Preparations in spirit	1084
Dry preparations (including bones)	625
Calculi and concretions	536
Monsters and Malformations	218
Microscopic preparations	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heaviside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held six meetings during the last year.

A summary of the progress made in the preservation, arrangement, and augmentation of the Collection will be found in the following Report.

ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented June 30th, 1886.)

Pathological Department.

During the year palpable deficiencies in the Collection have been further supplied; and the additions, it is hoped, will not be found wanting in value, number, or variety. Many illustrations of Comparative Pathology, among them some of much interest, have again been added. A considerable number of duplicate and other specimens have been received from the Curators of the Museums of most of the larger London Hospitals. Advances in Surgery and novel procedures are illustrated by specimens of excision of the pylorus, calculi extracted by the supra-pubic operation from the bladder, and by nephro-lithotomy &c.

The positions of the several series in the Museum have been indicated by printed labels.

Descriptions of the specimens, to the number of some hundreds, added to the Collection during the progress and since the completion of the Catalogue have been prepared by Mr. Eve, the Pathological Curator.

Department of Comparative Anatomy.

Since the last Annual Report the work of cleaning, re-numbering, and re-arranging the Osteological specimens of the Mammalia other than Man, according to the new Catalogue, has been completed; and labels have been attached to the specimens more prominently displayed.

The most noteworthy additions to the Collection during the year are:—The series of models of Pterosauria made by C. Heitgen of Munich; a large and fine specimen of a Spanish Donkey, presented by Mr. Sutherland. A series of sound-producing organs of Invertebrata has been obtained; it illustrates the chief modifications of these curious organs, of which there was no specimen in the Museum. The examples of organs of hearing in the Invertebrata being found only represented by that which in now known to be the kidney, the deficiency has been supplied by preparations showing some of the chief modifications. A considerable number of Birds' skeletons have been added, in view of a new edition of the Catalogue of Birds. To the special Invertebrate group a specimen of *Peripatus* and another of the same animal dissected, together with some dissections of the Urochorda, form the commencement of preparations by which it is intended to illustrate the general anatomy of type forms.

I have again the pleasure of specially alluding to the dissections made by Mr. W. Pearson with his accustomed skill, those of the Human lachrymal apparatus being of particular interest.

RESPIRATORY AND SOUND-PRODUCING ORGANS.

No. in Catal. *Donors.*

1021 A. Anterior region of *Myxine glutinosa*. A green glass rod has been passed through the external nasal opening into the pharynx. Red glass into the alimentary canal. The latter shows six pairs of respiratory pouches, the ducts of which on each side open by a common orifice indicated by blue glass. On the left side a special passage from the œsophagus opens externally at the same point as the respiratory orifice. The heart and aortic arches are also shown. C. STEWART, Esq.

1156 H. *Alpheus megacheles*: it produces a sound like glass breaking by suddenly closing its left claw. Prof. J. BELL.

1156 I. Portion of carapace, with first and second antennæ, of *Palinurus vulgaris*. An oval file-like surface on the second joint of the second pair of antennæ (an arrow points to it) rubs against a smooth surface on the upturned and curved sternum of the first pair. Two tubercles, one above and one below the file (bow), and a soft process behind it, keep the bow firmly pressed against the sternum and guide its movements. The fulcrum of the bow-bearing piece is in the centre of the curve formed by the sternum. The ridges of the bow are in the direction of its motion. Purchased.

1156 K. Male *Ocypoda ceratophthalmia*. The propodite of the left large claw bears a file-like ridge, which, rubbed against the fore part of the carapace, produces a stridulating sound. Stores.

1156 L. Male and female *Matuta picta*. The propodite of both large claws in each sex has at its upper border two file-like surfaces, used as in the former specimen. Stores.

1156 M. Right chelate genital appendage and right half of last tergum of *Sphærotherium*. The appendage has a file-surface (bow), which rubs against a roughened surface on the tergum. Purchased.

1156 N. Fore wings of two male and one female *Phasgonura viridissima*. The bow on the under surface of the left wing is drawn rapidly backwards and forwards across a smooth ridge on the upper surface of the left, a transparent membrane behind the latter increasing the sound by resonance. The bow on the right wing rubs against the thorax. In the female this structure is absent. C. STEWART, Esq.

1156 O. Fore wings of male *Pseudophyllus*, showing a similar structure, but the resonating membrane is overlapped by a process of the inner border of the wing. Stores.

1156 P. *Cystocœlia immaculata*. A finely-toothed ridge on the inner surface of each femur rubs against a curved series of ridges on the second abdominal segment. The axis upon which the femur moves is the centre of the curve. The sound is greatly intensified by the air-distended abdomen. BRITISH MUSEUM.

1156 Q. A Beetle (*Lomaptera yorkiana*). The borders of the abdomen show on the under surface of the second and third segments a black patch having a fine file-like character, the ridges being directed as radii from the axis of movement of the femora. One leg has been detached; it shows ridges on the tibial end of its femur, which rub against the file-surfaces on the abdomen. Purchased.

1156 R. A Cicada, the whole of whose abdomen, except its first segment, has been removed; also the left "lid" and right "drum-cover." Two muscle-

No. in Catal. *Donors.*

bundles arise from the first abdominal sternum, and are inserted into the convex drum-membranes of their respective sides ; these membranes, by being alternately pulled in by the muscles and let go, produce sound-waves. The drum-covers reflect the sound to the lid, which again reflects it to the exceedingly thin, transparent, and tensely-stretched "mirror." The latter, in conjunction with the other parts, greatly increases the intensity of the sound by resonance. F. P. Pascoe, Esq.

1156 s. *Cicada australasiæ.* The wings, right drum-cover, and left lid have been removed.

1156 t. *Thopha perulata*, the left lid and portion of right drum-cover being removed. Remarkable for the large size and backward extension of its drum-chambers. The skin forming the drum-cover appears to secrete a white substance such as is often formed by other Hemiptera. Purchased.

1156 u. *Dundubia mannifera.* Right drum-cover and left lid removed. Although other parts are small, the lids are nearly as long as the abdomen. W. L. Distant, Esq.

Adrenals.

1278 a. Adrenals and kidneys of *Phalangista vulpina.* J. Abrahams, Esq.

Nervous System and Organs of Sense.

1380 p *c.* Human lachrymal canals and nasal duct of left side.

1505 a *a.* Tongue of *Macropus bennettii.* J. Abrahams, Esq.

1527 a. Longitudinal dorso-ventral section of the head of *Petromyzon marinus.* The unpaired nasal opening on the top of the head leads by a short tube into the olfactory chamber whose surface is amplified by numerous folds. From the floor of the olfactory chamber a blind diverticulum extends backwards above the pharynx, but does not communicate with it. A red glass rod has been passed into that upper division of the alimentary canal along which the food passes. Violet rods are passed from the respiratory diverticulum of the pharynx through the external openings. Where the respiratory region arises from the common canal may be seen the left of two valves which protect its orifice. Purchased.

1559 a *a.* Auditory sac in right first antenna of *Palinurus vulgaris.* Purchased.

1559 a *b.* *Hemiacrida.* Tympanic membranes on inner and outer sides of proximal extremities of tibiæ of fore legs. Stores.

1559 a *c.* *Deinacrida heteracantha.* Tympanic membranes on fore legs. Stores.

1559 a *d.* *Pseudophyllus.* Tympanic membranes, protected by a fold of skin, which leaves two openings on each tibia by which sound-waves enter ; on one side these are indicated by black paper. Stores.

1559 a *e.* *Rhomalea gigantea.* The fore wings are raised by bristles, which also separate the last thoracic and first abdominal segments ; the latter shows on each side a thin transparent patch of cuticle which serves as a tympanic membrane. Stores.

1559 a *f.* *Locusta migratoria.* The tympanic membrane, which is protected by being depressed below the surface of the first abdominal segment, is indicated by an arrow ; it faces backwards and outwards. Stores.

1559 c. Head of *Petromyzon marinus.* The brain, spinal cord, olfactory sac, eyes, and ears are exposed. Of the cartilaginous periotic capsules situated

THE LIBRARY.

The formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the studious. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the past year there have been added to the Library 522 volumes, including 140 works and 214 tracts, pamphlets, essays, reports, and theses. The entire collection now consists of 40,813 volumes, comprising 15,802 works, and 40,517 tracts, pamphlets, essays, reports, and theses.
